Education

IES College of Technology — Bhopal, MP
B.Tech. in Computer Science & Engineering - 7.4/10 — *2024 – 2028*

Kamla Rai Inter College — Gopalganj, Bihar
Senior Secondary [PCM] - 60% — *2024*

P D M Inter college — Jagdishpur , UP
Higher Secondary - 73% — *2022*

Projects

SecureBank | *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS* — Github | Live

- Built a full-stack banking application enabling users to create accounts, manage balances, deposit, withdraw, transfer funds, and track transaction history securely.
- Implemented JWT-based authentication and role-based access control with protected customer and admin routes, along with password reset and change-password functionality.
- Developed secure REST APIs with Helmet, CORS, rate limiting, and structured error handling, and deployed the frontend and backend using Render.

AI-Based Accident Prediction System | *Python, Machine Learning, React.js, Node.js* — Github | Live

- Developed an AI-powered accident prediction system to analyze historical accident, road, weather, and traffic data for identifying high-risk locations.
- Implemented machine learning models to predict accident risk levels and generate safety insights for proactive accident prevention and decision-making.
- Designed an interactive web dashboard to visualize accident-prone areas, prediction results, and risk-based recommendations using a full-stack architecture.

MeshLink | *React.js, Node.js, Firebase, Bluetooth, Wi-Fi Direct* — Github | Live

- Developed an internet-independent emergency and women-safety communication platform for exchanging emergency messages during low or unavailable network connectivity.
- Implemented Bluetooth and Wi-Fi Direct-based device-to-device communication to enable nearby users to relay emergency messages without relying on cellular internet.
- Integrated Firebase for online synchronization and emergency data management, creating a hybrid offline-first communication architecture.

Technical Skills

Languages & Databases: Java, JavaScript Python, MongoDB, SQL

Web Development: React.js, Next.js, TailwindCSS, Node.js, Express

Tools: Git, GitHub, VS Code, Postman, Render, Docker, Firebase

Soft skills: Leadership, Adaptability, Teamwork, Problem Solving

Certifications

DSA in Java, Core Java – Infosys, Programming in Java – NPTEL, Soft Skill and Development-NPTEL

Achievements

- In Smart India Hackathon (SIH) 2025 and 2026, contributing to innovative technology solutions for real-world problem statements.
- Successfully cleared internal hackathon rounds for Smart India Hackathon in multiple editions through team-based solution development and project presentations.
- Participated in 3+ college-level hackathons, building and presenting full-stack, AI, and problem-solving based projects under time constraints.
